YOUR Best MONEY YEAR EVER
with Belinda Rosenblum

The 3-Course Bundle to Help You Find, Manage, and Keep More Cash in 2022 And Beyond.

SHOW ME THE MONEY!

Money is not nearly as complicated as it may seem. Yes, that's right, learning how to make money work for you can be easy, joyful, and a lot of fun. (No, seriously.)

You just have to know where to start. And the good news is, ***this is the start…***

You know *exactly* what I mean if…

- **Where your money actually goes** remains a mystery each month.
- You are **not saving enough** – but you're not sure where to start with a money plan.
- Your life feels **paycheck-to-paycheck**, even though you make "good money," and you fear needing to pay unexpected expenses that may pop up.
- You add what you can spare each month to your retirement account but **retiring seems to be stretching further out** each year.
- You wonder **why you can't seem to hold onto or accumulate** much money, despite trying to be positive or use affirmations.
- You want to have money for your **child's college fund** or that **family vacation** but you aren't sure you can actually save for it before you want to go.

Your dreams are on hold – because there just never seems to be quite enough money to go around. So money holds you back from living your ***entire*** life with more confidence.

Sound familiar?

Well, you are not alone. I promise.

I can help – and it can be so easy to start living your dreams faster than you think without sacrificing your lifestyle.

You may be thinking, "But how? No one taught me this!" Or "There's no way I could get it together at this stage in the game – it's too late for me."

But the truth is – you CAN do this. When you make 2022 your best year ever...

- You can **pay your bills, pay off your debt, AND enjoy having extra** money left over each month.
- You can **make more money** while being completely aligned with your priorities and values.
- You can **go out to dinner or buy those shoes** you've been wanting, because you're fully confident you have the money to pay for them.
- You can have your **money and paperwork organized** so you can put your hands on whatever you need exactly when you need it.

You can live your dreams – today.

You just need a roadmap.

And for the first time ever, we are bringing together our best programs to help you dial in your MOMENTUM, MANAGEMENT, and MINDSET with MONEY.

Because if you are missing *any* of these 3 essential elements, your financial strategy is destined to fail. *(Maybe you have been feeling some of that resistance or uphill climb so far. It doesn't have to be that way.)*

SHOW ME THE MONEY!

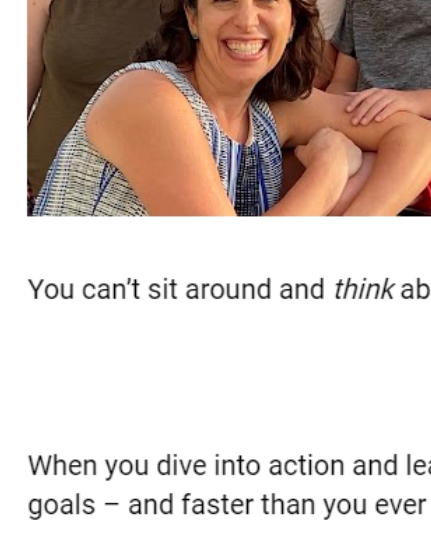
Meet Your Guide, Belinda Rosenblum

When I was only 21, my father had a stroke. Being the family CFO at 21 was not a job I had wanted or was prepared for.

Over the next several years, I either barely kept it together or was completely overwhelmed. And so by the time I was 28, my destructive "avoider" pattern had taken over and I was worried my father would get kicked out of his nursing home from non-payment or doctors would stop seeing him since the medical reimbursements were so hard to keep track of.

Finally, I decided that my money and bills were no longer going to own and overwhelm me - **I was choosing to own my money.**

And over the next 6 months, I created a money management system and new mindset about wealth. **I moved into action and stayed there.**



5 years later, I had become a self-made millionaire at 33.

17 years after that, I've created a business that has generated over $3.8 million in revenues and helped clients make or save well over $4 million.

AND create the family I always wanted, with a supportive husband (and business partner), a 21-year-old step-daughter, an 8-year-old Lego-loving son, and a spunky 6-year-old daughter.

I not only changed my finances – I changed my life.

You can't sit around and *think* about money. Or *worry* about money. Or let it *own* you.

You have to take action.

When you dive into action and learn how to understand, organize, and grow your money, you get to realize your goals – and faster than you ever thought possible.

MEET KIMBERLY

When we started working together, she was stuck in her fears and emotions around money. Kimberly was distracted at work and couldn't stop her mind from worrying about money.

Within 2 weeks, she was organizing her paperwork and was checking her bank account regularly. She mentioned her constant frustration around one particular bill - from her divorce attorney. Because it was bringing her so much anxiety, I knew we needed to get rid of this bill first - and fast.

I told her to ask her attorney how they could work together to get this bill paid off. He agreed to lower her balance from $2700 to $1500 if she paid it off in full. And she did.

Within 6 months of the program, Kimberly had paid off her attorney AND a further $5800 in debt! Plus, she's earning more money, fixing things she has long put off in her home, contributing more to retirement, and finally taking control of her life and her future.

Kimberly proudly shares, "This own your money program has meant the world to me. Now I know I really can do this - and that is so freeing. I am so thankful for the program and all the support it has given me. I learned to get into action, not only with my finances, but all my life!"

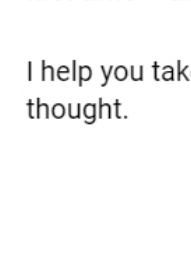
YOU DON'T HAVE TO PUT OFF YOUR DREAMS OR WAIT FOR SOME DAY IN THE FUTURE. YOU CAN LIVE YOUR OWN DREAMS – TODAY.

This bundle is designed to be a learning system that is completely doable – especially for busy, family-focused people.

The combination of the do-it-on-your-own-time online learning system in all 3 of the critical areas you need to get a handle on (your momentum, management and mindset), will get you motivated, on track, and finally making real progress in successfully managing your money and your paperwork.

Beyond the detailed tips, blueprints, and guidelines, this system supports you taking action – maybe for the first time – and get going on the specific actions that creates lasting impacts.

I help you take small steps that lead to big change over time – and faster than you may have previously thought.



> I felt completely lost, financially irresponsible, and disorganized. Belinda taught me how to take action steps and stop avoiding out of fear and denial. This has been one of the most important steps I've taken in my life!

"COMPLETELY TURNED MY THINKING INSIDE OUT... SPECTACULAR"

> OMG, this woman is really spectacular! She totally lifted my spirits and I realized I AM in the poverty mentality, not just for me but for all others in my world too. I'm so worried that others can't pay my rates, even the wealthy ones and I undervalue my gifts. YIKES. Total reality check. Belinda completely turned my thinking inside out and expanded my vision to limitless. As always it's up to me (and the team) but I feel so much better. Belinda is such a gift. Thank you.

> I am fantastically inspired! I actually made a plan. I learned where my money was going and found the confidence (and the cash) to pay down those credit card bills. I love her special Making Money Easy templates. I am now using this regularly to see where my money is going.
>
> - Ryan

This is the first time I have EVER created this kind of an incredible offer -- and at this low of an investment.

But I get that you still may have questions...

That's because people who have been following me know that I only lead a few courses each year. My private clients pay me over $6,000 a day to help them with their personal and business finances. But this course gives you the chance to learn my secrets—and get my personal attention—for a fraction of that price.

Q: Why would I spend money to save money?

A: Instead of waiting for an urgent need to come up where you become strapped, stressed, or overwhelmed, let's tackle this now. It's actually costing you every day you wait – in more money you could be earning, more you could be saving (especially if you are paying even $1 in interest on credit card debt), and more that could be growing. And it's costing you as it delays or permanently postpones your dreams coming true, and may even cause you to stop dreaming.

Often, people make back the money they have spent on the program while they are in the program!

Q: What if I have no time?

A: First off, I totally understand. That's why I've set this up in a way that gives you the time and space to stay on track and take in the learning in bite size chunks, with full support along the way. I believe less is more and simple is better, so I divided each module into ~15 minute bite size audio chunks so you can easily fit this into your life. You can download them onto your phone and keep on track even while in the car picking up your child at school, waiting for the train, or working out.

Q: Is there a guarantee?

A: Given the nature of this 100% digital program that you will have full access to immediately with your purchase, we are not able to offer any refunds. After hundreds of students have achieved positive results, I'm confident that you're going to be thrilled. When you follow the steps and do the work, you will start taking more action and feeling more confident and in control of your money.

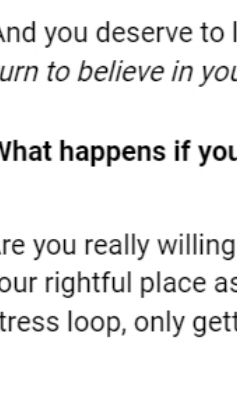
Q: Can my partner do it with me?

A: Yes! It's no wonder that parents and couples have the most stress and struggle with money – it's not just you that you have to worry about. The great news is that this is an excellent platform for you to learn and slowly bring them on board. As you see the results - you have more money in your accounts and share some of the easy-to-implement tips, your partner will begin to be excited about getting on board.

I've come into your life for a reason—to alleviate the stress around your money. I just have to teach you what to do.

Whatever you feel is holding you back; it's safe to let go of that now. I guarantee this program works.

Meet Merrilyn...



Merrilyn believed that someone in their 60s was too far gone to make changes. After 40+ years of letting her husband take all the responsibility for their finances, they found that they resented each other in their respective roles. "It was awful!" she shared.

She had been afraid to be an active participant and have a role with their spending and saving money, in fear it would threaten their marriage.

After being in The Own Your Money Program, Merrilyn found the knowledge and confidence to stop avoiding her finances and take that active role. Now she is enjoying the regular wins when her husband asks her about their checking account balance and advice for their finances.

She has found her voice and is finding this is strengthening her marriage.

Merrilyn proudly declared, "Though I'm in my 60s, I found it's never too late to start... somewhere!"

You deserve to live your dreams.

And you deserve to live them now, no matter where you are on your financial journey. *I believe in you and now it is your turn to believe in yourself, too.*

What happens if you don't give yourself the opportunity, right now, to make your dreams come true?

Are you really willing to watch another year, or 10 years go by without getting this money stuff handled? If you don't take your rightful place as the owner of your own money, do you really want to stay stuck on the paycheck-to-paycheck stress loop, only getting by and never getting ahead?

I want so much more for you.

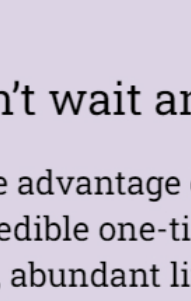
Every day that you don't take action -- and instead stay feeling guilty or ashamed to ask for help, avoid clearing your debt and don't get your finances organized -- is keeping you stuck worrying and stressing over something that could be helping to fund your fun!

Every day that **you don't own your self-worth and money confidence**

And lastly, every day that you don't make money work *for you* is actually *costing* you money, time, and ultimately costs you the life you desire.

So what are you waiting for? You can get started today for just $297!

I'm ready to create my best money year ever!



> I've accomplished more in 8 weeks than I have for the last 8 months in my life, business and health.
>
> - Sarah

P.S. This is the same process I take my private clients through – and it's yours for a fraction of the price. I want you to experience the power of owning your money and finally making money work for you, and stop working so hard for it. I promise you, this can put an end to the worry and self-doubt – no matter where you are on your financial journey! I want you to live your dreams – today.

"I felt trapped and really lost in my financial madness. I was desperate for a way to get out and gain control instead of being controlled. Belinda gave me this and I'm excited about getting my life back on track!"
- Casey

OWNING MY WORTH AND MY MONEY

- Susan

"Excellent tools to become organized and get focused about my money priorities!"
- Laurie

"Belinda is awesome at what she does to help you get to the 'core' of the matter. I learned a tremendous amount about being a better steward of my money and to truly make it possible to own my money."
- Peggy

CHANGED MY BELIEFS ABOUT MONEY.
"Life was pretty darn good... except I always seemed to be a hiccup away from debtor's prison. I seemed to have a believ that money either blocked the flow or when it flowed in, it flowed right back out, and I wanted to change that belief. Well, Own Your Money is just waht it advertised: I changed my believe and became a responsible manager."
- Sunny

"Better than a diet! How many pounds equal nearly two years of avoidance and denial? Thanks to Belinda's recent coaching, I've caught up on two years in back tax filings. I feel lighter every day!"
- Cynthia
